Overview
Preeti Urology Kidney Hospital is twelve years reputed, dedicated Urology & Nephrology center, having two branches at KPHB & BHEL region of Hyderabad. The fellowship helps the Participant to get exposure in all aspects of Endourology Procedures like RIRS, PCNL and Laparoscopic Urology.

Training Centre Profile
Preeti Urology & Kidney hospitals together have more than 100 inpatient capacity. We perform more than 1200 Endourology procedures in a year. Urology department is headed by Dr V Chandra Mohan, who has 14 years of experience in urology. He has performed more than 3000 RIRS Procedures. He has been invited faculty in various workshops in the country and outside the country. The department has four more urologists, two nephrologists and 3 radiologists.

Objectives
The objective of this fellowship is to produce urologists highly competent in Endourology Surgery.

Duration of Course
Duration of the course will be for six months.

Description of Program
This is a 6 months fellowship program involving clinical experience in Endourology and Laparoscopy. In addition to this clinical experience, time is available and encouraged for both clinical and publication work.

Operative Responsibilities
Daily Operation theater and OPD work is available. Fellowship urologist will also play active role during the Endourology training courses held by the hospital. The clinical component of the training program will aim at development of technical skills in the operating room, development of familiarity and dexterity with Endourology instrumentation. Exposure to various advanced endourology equipment is facilitated.

Clinical Responsibilities
The fellowship urologist will be expected to perform clinical duties following the norms of the hospital. The fellowship urologist has to actively participate in daily ward rounds to see the inpatients, preoperative and postoperative patients and attend the outpatient clinics.

Academic Responsibilities
Academic activities include regular clinical case discussions and academic interactions. The fellowship urologist will actively coordinate with the research coordinator for clinical data collection for studies and presentations. The fellowship urologist will be presenting papers/videos in intra institutional meetings, monthly Hyderabad Urological Association, zonal, national meetings held during the fellowship tenure. Each fellowship urologist should be actively involved in publishing. Additionally, the fellowship urologist will be responsible for the design and implementation of any clinical trials being conducted during their training period.
